For Your **Restaurant**

# RESTAURANT

## At the Point of Sale

Touch Terminal + ProsPay® Restaurant

Fully Configurable Sales Screen

Custom Graphic Display of Dining Room Layout

## Main Advantages

- **Easy to use:** Thanks to its visual and touch design, it requires no additional training.
- **Reliable:** With SQL server, all the information is protected in the system at all times.
- **Secure:** Users identify themselves through the magnetic strip.
- **Scalable:** Can be adapted to client's dimensions, from a small restaurant to a chain with hundreds of outlets.
- **Customize:** A solution for each need: Restaurants, Pizzerias, Bars, Discos, Fast-Foods, Delivery...
- **Profitable:** Increase sales rotation and help decrease inventory and staff cost.

### ProsPay® Rest Features

- Graphic room designs that can be customized with different table types and different sizes.
- Graphic display of table status (free, reversed, occupied, invoiced.)
- Graphic display of items in the screen with photos or in text mode.

## Warehouse and Purchases Management: Included in ProsPay® Rest

- Management of purchase orders to supplies: ProsPay® Rest proposes which items have to be bought depending on the stock levels and the sales forecasting. It also proposes the supplier and price for these purchase orders.
- Reception of items purchased.
- Realization of partial or total inventories.
- Beverage stock control through automatic replacements of bars (locations) depending on calculated consumptions.
- Introduction of sets for cost calculation and stock control of components.
- Definition of items that are sold by sizes (small glass, coup, cocktails...)
- Definition of item modifiers that affect stock and price (ex. pizza ingredients)
- Purchase and consumption statistics.

## From Home or Away: Consult the business

- On the web: Consult in real time of the daily sales by employee or by hour.

The ProsPay Touch® retail terminal is a lightweight compact touch terminal that is designed to meet the most demanding work environment at the point of sale. Thanks to its large touch screen and intergraded printer makes user interaction easy and fast.

Whether its installed vertically or horizontally, you can adjust the inclination grade of the TFT touch screen and start working.

Additionally, our Retail Terminals come with a wide array of accessories to adapt to any need or working environment.
