PROSPAY POS SOLUTIONS RETAIL

The Perfect Solution for Retail

Main Advantages

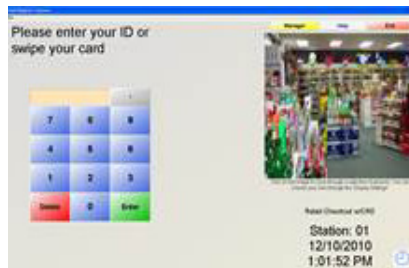

- **Easy to use:** Thanks to its visual and touch design, it requires no additional training.
- **Reliable:** With SQL server, all the information is protected in the system at all times.
- **Secure:** the users identify themselves through their fingerprint in order to accede functions and permissions.
- **Scalable:** Can be adapted to client's dimensions, from a small restaurant to a chain with hundreds of outlets.
- **Customize:** A solution for each need: Boutiques, Shoe Shops, Sport Store, Fragrance Shops, White Goods, Supermarkets...
- **Profitable:** Increase sales rotation and help decrease inventory and staff cost.
- **Redeemable:** Utilize second screen to advertise in-store promotions and offers.

Software for Retail Management

On the Counter:

Touch Point of Sale + Cash Register Express

- Quick sale by scanning barcodes.
- Intuitive and easy way of working thanks to its touch interface.
- Configurable document print-out (receipts, orders, delivery notes, invoices, budgets...) for any type of text printer or graphical printer.
- Control employee attendance by password, barcode, swipecard or fingerprint.
- Personalize visible options for each type of employee.

Login Screen

Sales Screen

In fashion, shoe stores and sporting goods outlet

- Search for items by description, reference, brand, department, season and more.
- Identify items with size, color, composition...
- Different price rates per date (Store price, sale liquidation, season).
- Manage lay bys and deposits.
- Sales on hold by seller.
- Loan management, client credit limit, repairs...

In Hyper markets and Supermarkets

- Connect with scales to sell items by weight.
- Interpret barcodes generated by scales in the perishable sections.
- Offers and promotions (3x2, second item at half price).
- Cash withdrawal warning.
- Supervisor authorization to make certain functions: payments, price changes and more.

In Fragrance shops and specialty stores

- Track consumed products by client
- Offers and promotions (buy one get another free)
- Control lots and promotional packs
- Clients loyalty (special prices, points accumulation, gifts and discounts).
- Discount Check and Coupon management.
- Control items by serial numbers (computers, white goods, telephones and more).

Terminals For ProsPay® Retail

Reporting Tools Screen

Inventory Maintenance Screen

Decision Making Statistics

Statistics with all business information to make decisions:

- Rank items by client, by seller...
- Completed orders and pending orders.
- Sales, purchase by point of sales, by business area and more.
- Compare between different periods of time (years, months, days of the week, seasons and more).
- View sales statistics by season, and promotions.
- Items without rotation.
- Cash-flow of collections and payments.
- Monthly statistics categorized by department, brand supplier, etc.

Electronic Payment

ProsPay® Retail solution incorporates electronic payment for credit cards through a magnetic card reader in touch terminals with broadband access.

- **NO fixed cost:** It is not necessary to purchase additional X25 lines, EFT Servers...
- **NO errors:** User does not have to type in the amount of the sale in an external POS terminal.
- **NO waiting:** Receive confirmations within 2 seconds or less.

The ProsPay Touch® retail terminal is a lightweight compact touch terminal that is designed to meet the most demanding work environment at the point of sale. Thanks to its large touch screen and intergraded printer makes user interaction easy and fast.

Whether its installed vertically or horizontally, you can adjust the inclination grade of the TFT touch screen and start working.

Additionally, our Retail Terminals come with a wide array of accessories to adapt to any need or working environment.
